PROFILE

Informatics Engineering graduate from Telkom University (GPA 3.56), with over 1 year of hands-on experience as a Network Engineer at PLN Icon Plus Jakarta and experience as a Teaching Assistant for Computer Networks courses. Skilled in network configuration and troubleshooting, full-stack web development using the Laravel framework, and developing IoT-based monitoring systems integrated with real-time data visualization and management to support efficient system monitoring and decision making. Proficient in networking technologies, PHP Laravel, MySQL, JavaScript, Firebase, and ESP32-based IoT development, with experience in data processing, dashboard development, and system integration. Demonstrates strong leadership, collaboration, and communication skills through organizational involvement, teaching assistant responsibilities, and project-based experience, with a proactive mindset, strong initiative, and a passion for delivering reliable and impactful technology solutions.

NETWORKING PROJECT

Hotel Network Infrastructure — Cisco Packet Tracer

- Designed a multi-floor hotel network using VLAN segmentation and inter-VLAN routing.
- Implemented OSPF, DHCP, SSH remote access, and switch port security with Sticky MAC Address.

University Multi-Campus Network — Cisco Packet Tracer

- Designed a multi-building and multi-campus network using VLAN segmentation and multilayer switching.
- Implemented RIPv2 routing, DHCP, and connectivity between internal and external servers.

WORK EXPERIENCE

Network Engineer

[PLN ICON PLUS JAKARTA]

JUN 2021 – JUL 2022

- Installed and configured network devices, primarily FiberHome, BDCOM, and Huawei routers, including network and management parameters to establish connectivity and enable remote access by the NOC team.
- Supported the activation and implementation of corporate network services, including Metro Ethernet services.
- Performed testing and commissioning to verify service connectivity and readiness, including BER testing for high-capacity links when required.
- Conducted onsite troubleshooting during network incidents by inspecting network devices, physical connections, and optical signal levels using an Optical Power Meter (OPM).
- Coordinated with the NOC team during service activation and troubleshooting to support remote diagnostics, configuration, and service recovery.
- Prepared technical documentation and service activation/testing reports.

HARD SKILL

Network Engineer (*intermediate-Advanced*)

- Network Installation, Configuration & Onsite Troubleshooting
- Router Configuration & NOC Remote Access Setup
- Fiber Optic, ONU/ONT Activation & Configuration
- Service Activation, Testing & Commissioning
- Routing, Switching, VLAN, Subnetting & Network Security
- Cisco, MikroTik, FiberHome, BDCOM & Huawei
- Cisco Packet Tracer & PNETLab

Full-stack Web Development (*intermediate*)

- Laravel Framework (PHP, HTML, CSS, Bootstrap, JavaScript)
- REST API Integration
- Authentication & CRUD System Development

Database & Data Management (*intermediate*)

- MySQL, Firebase Database
- Data Processing, Management and Visualization
- Real-time Data Monitoring Dashboar

IoT Development (*intermediate*)

- ESP32 Programming & Sensor Integration (pH, TDS, DS18B20, DHT22)
- Firebase Realtime Database
- Real-time IoT Dashboard Monitoring System

Tools & Platforms

- PuTTY, Winbox, Cisco Packet Tracer, PNETLab, Git & GitHub, Visual Studio Code, Arduino IDE

CERTIFICATION & BOOTCAMP

- | | |
|--|----------|
| BNSP Competency Certificate – Junior Cyber Security | DEC 2025 |
| CISCO CCNA Routing and Switching : Introduction to Network | APR 2020 |
| CISCO Cybersecurity Essentials | MAR 2021 |

ORGANIZATION EXPERIENCE

STAFF OF SOCIAL DEPARTEMENT

[HIMPUNAN MAHASISWA TEKNIK INFORMATIKA (HMIF)]

TELKOM UNIVERSITY

DEC 2023 - DEC 2024

- **Sponsorship & Partnership:** Successfully negotiated sponsorship agreements with external partners, securing funding that covered 100% of the operational budget for the UPGRADE IF Series 2 event.
- **Event Leadership:** Served as Chief Organizer of UPGRADE IF Series 2, coordinating the organizing committee, managing event planning, and ensuring the successful execution of the program.
- **Team Collaboration:** Collaborated with internal committees and external stakeholders to coordinate event logistics, sponsorship deliverables, and program activities, ensuring smooth event operation

EDUCATION

Telkom University - Bachelor’s Degree in [Informatics Engineering], GPA:3.57/4.00

SEP 2022 – JUL 2026
